---

**1. NATURE OF OPERATIONS**

NameSilo, LLC (the “Company”) is a limited liability company incorporated in the United States of America with limited liability under the legislation of the State of Arizona. The Company is a provider of domain name registration services and marketplace services for the buying and selling of domain names.

These condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

**2. BASIS OF PRESENTATION**

**(a) Statement of compliance**

These condensed interim consolidated financial statements have been prepared in conformity with International Accounting Standard (“IAS”) 34, *Interim Financial Reporting*, using the same accounting policies as detailed in the Company’s consolidated financial statements for the year ended December 31, 2019. They do not include all the information required for complete annual financial statements in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”) and therefore should be read together with the consolidated financial statements for the year ended December 31, 2019.

**(b) Basis of measurement**

These condensed interim consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments that are carried at fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

**(c) Basis of consolidation**

These condensed interim consolidated financial statements include the financial statements of the Company and NamePal.com, LLC, a subsidiary wholly owned and controlled by the Company.

Control is achieved when the Company has the power to, directly or indirectly, govern the financial and operating policies of an entity so as to obtain benefits from its activities. Subsidiaries are fully consolidated from the date on which control is obtained and continue to be consolidated until the date that such control ceases. Intercompany balances, transactions and unrealized intercompany gains and losses are eliminated upon consolidation.

**(d) Functional and presentation currency**

These condensed interim consolidated financial statements are presented in United States dollars, which is the functional currency of the Company and its subsidiary.

**3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS**

The preparation of financial statements in compliance with IFRS requires management to make certain judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates and assumptions.

**NAMESILO, LLC**  
**NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**  
**For the three and nine months ended September 30, 2020 and 2019**  
(Unaudited – Expressed in United States Dollars)

---

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future years affected.

Significant estimates and judgements made in the preparation of these consolidated financial statements include, but are not limited to, the following areas, with further information contained in the applicable accounting policy or note:

Functional currency

The Company has used judgment in determining the currency of the primary economic environment in which each entity operates. In making such determination, the management has considered the currency that mainly influences the sale prices and the cost of providing goods and services in each jurisdiction in which the Company operates. The Company also considered secondary indicators including the currency in which funds from financing activities are denominated and the currency in which funds are retained.

Digital currency

There is currently no specific definitive guidance in IFRS or alternative accounting frameworks for the accounting for digital currencies and management has exercised significant judgement in determining appropriate accounting treatment. In making this determination on the accounting for the digital currencies the Company has reviewed the sources and uses of the digital currencies in the operations of its business. In the event authoritative guidance is enacted by the IASB, the Company may be required to change its policies which could result in a change in the Company's financial position and earnings.

**4. DIGITAL CURRENCY**

The Company holds 6 bitcoins with a fair value of \$61,467 as at September 30, 2020 (December 31, 2019 – 83 bitcoins with a fair value of \$602,575).

The digital currency market is still a new market and is highly volatile; historical prices are not necessarily indicative of future value; a significant change in the market prices or lack of an active market for the digital currencies would have a significant impact on the Company's other comprehensive income and financial position. The Company uses Blockchain.info as the exchange to transact in bitcoin and bitcoin cash.

**5. SEGMENTED REPORTING**

The Company operates in a single reporting segment, domain services.

During the nine months ended September 30, 2020 and 2019, no customer accounted for more than 10% of total revenue.

The Company operates in a single geographic region, the United States of America, because it is impracticable to determine the country of the customer.
